

2011-2012 District Goals

- Insure the smooth transition of 6th grade students to Parkside School
- Insure that there is a smooth transition of 6th grade staff and support to Parkside School
- Redefine student attendance boundaries for students in grades K-5
- Consider school consolidation
- Complete Phase 1 of Parkside School refurbishment
- Identify/secure additional levels of funding for Phase 2 of Parkside's refurbishment and other capital facility projects

Additionally; the District has recently adopted and funded a three year plan for the incorporation of Technology at all levels of instruction and operation.

With the State's decision to change the entry date of Kindergarten, the District will need to develop a "transitional Kindergarten" program.

There remains an overarching "bridge" to insure student achievement proficiency for all students, particularly English Language Learners.

The District continues to demonstrate a positive fiscal certification and status, but such status will require ongoing staff attention and commitment
