San Mateo County Office of Education Post-Election Resources

January 9, 2017

The San Mateo County Office of Education (SMCOE) is committed to supporting our schools in fostering an environment in which all students are able to learn and excel, whatever their national origin, ethnicity, religion, sexual orientation, ability, gender, or socio-economic status. In these politically contentious times, we also want every student to feel safe at school, regardless of his or her immigration status. With this in mind, we have prepared a list of post-election resources that you can use to help students, inform families, and support school staff.

SMCOE will provide you with additional resources every two weeks. Please contact mchavez@smcoe.org with questions and/or information.
